Store, Loncaster, Ohio. I have a very pleasant and
retired room, my present arrangement is permanent
and I will be happy to see my friends who may what
the consult me about their teeth. My special business
in fature will be Filliers (Pluvario) Teetin. I
have for nearly the years been siming at perfection in
this particular operation because it is of influstely
greater importance than all others. We can say with
entire confirmen oner, that all teeth can be saved permanically and for life by filling every cavity as snon
as it can be seen; but if the cavities are large and the
teeth have ached, they cannot be saved. Hence the
importance of frequent exeminations by the Dentist.
This plan will be the chopped ultimately and will
obviste the necessity of artificial teeth and save a
vast amount of suffering.

I have been residing in this city over twelve years,
and have, during that time, filled more than aixteen
thousand [16,000] teeth. I warrant all my fillings now
for 20 years and upwards, and expect to spend the reminder of my life in Lancaster. I have the pleasure
of referring to the older physicians of this city.

I falvays in my office during business heurs.

Respectfully.
